Subject: Non-Notifiers

RDMS DocID 00100891

Stan,

Here's a summary to pass on to John Smaldone.

Joan

#### Non-Notifier Initiative

The RCRA program conducted an inspection at Theis Precision Steel of Bristol, CT on May 5, 1994. This is a specialty steel mill, with \$20 million in sales, per Dunn & Bradstreet. The facility does not have a RCRA ID number, but uses various solvents which are disposed of in the waste oil rather than as hazardous waste. Therefore, this is a RCRA non-notifier.

#### Exports Initiative

The RCRA program conducted a record review at MacDermid Chemicals of Waterbury, CT on May 5, 1994. The facility imports copper chloride etchant, and historically had imported lead containing acids. RCRA is currently reviewing the paperwork associated with the importations of waste from Canada.
